MI6 CONFIDENTIAL – SKYFALL

ISSUE #12 OUT NOW

(London, UK, November 10th 2011) MI6 Confidential, the full-colour magazine celebrating the world of James Bond 007, returns with its twelfth issue.

The waiting is over. James Bond 23 is in production. *Skyfall* is coming... MI6 Confidential attended the official press conference in London to gather the intel and soak up the atmosphere.

As well as the 50th anniversary in 2012, *Skyfall* will mark the longest gap between 007 adventures without a change of actor in the leading role. Will the extra time crafting the script, organizing the crew, scouting the locations and assembling the cast pay off?

Rounding out Issue #12 of MI6 Confidential - the leading James Bond magazine - is an analysis of *The Spy Who Loved Me* script history, a look at the publicity hype of *Diamonds Are Forever* in the USA, and how Kingsley Amis' fascination with 007 lead to his one-off continuation novel 'Colonel Sun'.

Featured in this issue:

- Bond With A Capital B - Complete coverage of the *Skyfall* press conference in London
- Skyfall Timeline - Tracking all the pre-production rumours and milestones
- Selling Diamonds - How marketing helped Bond re-conquer American audiences
- From SPECTRE To Stromberg - The evolution of *The Spy Who Loved Me* shooting script
- Bonding With Kingsley Amis - A look back at the author's career and fascination with 007
- The Genesis of Colonel Sun - How the first 007 continuation novel came about
- Agent Under Fire - A look back at the best-selling game 2001 game from Electronic Arts
- The Bond Connection - Designing the anti-Bond period piece *Tinker Tailor Soldier Spy*
